MIGRATION FLIGHT TRAINING CONFERENCE EXPLORES THE POWER OF BIG DATA

James T. Barry of PASSUR Aerospace will share insights on how data collection and the resulting business intelligence can improve aviation business.

Austin, TX (September 26, 2016) – Redbird Flight Simulations is proud to welcome PASSUR Aerospace President and CEO, James T. Barry, as the keynote speaker on Wednesday, October 25th at the 6th annual Migration Flight Training Conference. Mr. Barry will discuss the importance of harnessing data to allow accurate predictions, better decisions, and data-driven improvement in commercial aviation traffic management. PASSUR Aerospace makes a difference to everyday travel by facilitating data-driven decisions for airlines, airports, business aviation, and the government. By aggregating, processing, and storing vast amounts of data, PASSUR is able to identify solutions that can help businesses perform better, while saving millions of dollars each year.

"This is the 'Moneyball of aviation'," noted Redbird Founder and CEO, Jerry Gregoire, "The impressive variety and detail of aviation data acquired by PASSUR, combined with their huge customer base and in-house experts, allows them to help make aviation businesses more efficient, profitable, and predictable. I look forward to having Mr. Barry share this information with the flight school operators at Migration."

Throughout the three-day event, Migration serves as a focal point for flight training professionals to discuss innovative instructional techniques, newly developing technologies, and successful business strategies. Migration features presentations and small group breakout sessions from leaders both inside and outside of the aviation industry. It was announced last week that Cirrus Aircraft Founder and CEO, Dale Klapmeier, will also attend Migration and present the keynote on the first day of the conference, Tuesday, October 25. The conference, taking place at the Redbird Skyport in San Marcos, TX, is open to all flight training organizations worldwide by visiting migration-conference.com and requesting an invitation.
